Nothing's better than the day
The day you told me: yeah it's true
You're everything I mean to you
And nothing's sadder than away
The days that I'm away from you
And there is nothing I can do
When I want to be with you

All day
We're gonna see tomorrow fade away
Just to have you here with me
I promise I will never leave
I want you always constantly

Well I'm still breathing in that day
Coming up the night before
I'm cutting pieces on the floor
Well, nothing sad won't go away
I had you as we watched them fall
Lying face down after all
We're dying on the floor

All day
We're gonna see tomorrow fade away
Just to have you here with me
I promise I will never leave
I want you always constantly
I want you always constantly

Always away

I don't want I don't need to save you
I don't want - want to save you
All I need to know is what you want (x4)

All day
We're gonna see tomorrow fade away
Just to have you here with me
I promise I will never leave
I want you always constantly
I want you always constantly
