Babydoll do you believe they'll catch you when you fall
And when morning comes the sun is gonna shine
Don't forget your minor keys your half lit cigarette
Cause when morning comes god knows that you'll be
mine

So let me in I'm ready to beg and to sing for my sins
Not leave it to chance and sweet coincidence
Cause that's just crazy and you know it's true

Well they said you was long gone
I just laughed and said alright
Bring her home tonight
And I heard you was graciously put on
I just laughed and said good night guess it's alright

Babydoll the men who hang like flowers in the hall
Are asking when your love is gonna show
And who knows why the love your need
Will always pass you by
Well I heard it's true your love is gonna grow

So let me know cause I can stay or honey I can go
Just to wherever you tell me so
And find my place there and there I'll stay

Well they said you was burned out I just laughed
And said come on she's not burned she's just gone
And it took me too long till I found out
Faces that you know the best oh well I guess
And they laughed when you said you was leaving
Everybody knows you well except for me can't you tell
And you watched from the wings of the late show roses
By you're feet of red all for me you said
