Do not get me wrong I cannot wait for you to come
home
For now you're not here and I'm not there, it's like we're
on our own
To figure it out, consider how to find a place to stand
Instead of walking away and instead of nowhere to
land

This is going to break me clean in two
This is going to bring me close to you

She is everything I need that I never knew I wanted
She is everything I want that I never knew I needed (X2)

It's all up in the air and we stand still to see what comes
down
I don't know where it is, I don't know when, but I want
you around
When it falls in place with you and I, we go from if to
when
Your side and mine are both behind it's indication

This is going to bring me clarity
This'll take the heart right out of me

She is everything I need that I never knew I wanted
She is everything I want that I never knew I needed (X2)

This is going to bring me to my knees
I just want to hold you close to meeee

She is everything I need that I never knew I wanted
She is everything I want that I never knew I needed (X2)
