It's hard to let you know that I need your help,
I am a domino,
I'm falling one by one and I don't know why,
And I'm sorry tell me that it's easy when it's cold you
get close to me
Please take away all of these troubles,
I need a brighter sun and okay I'll try another day

My history can tell,
That I repeat myself and I don't know why,
All arguments aside I'm wrong and this is mine
And I'm sorry tell me that it's easy when it's cold you
get close to me
Please take away
All of these troubles I need a brighter sun
And okay I'll try another day

Tell me that it's easy
When it's cold you get close to me
Please take away all of these troubles
I need a brighter sun and I'm okay I'll try to live
And it's easy when it's cold you get close to me
Please take away all of these troubles I need a brighter
sun
And okay I'll feel like I was 21
And okay I'll follow you and I'll fight again
And okay I'll try another day
