At night I find that I can't sleep
All day long I walk the streets
My heart is filled with misery and pain
Tears fill my eyes when I speak your name

CHORUS

The harder I try
The bluer I get
Lord knows that I
I haven't gotten over losing you

I can't get over losing you
I can't get over losing you

I'm so lonely I've lost my pride
I've got tears that I can't hide
Every day I'm so sad and blue
Without your love, what would I do

(Chorus)

Last night I held someone new
But when I kissed her lips I was seeing you
A kiss like this has no meaning you see
And life without you has no future for me

(Chorus)

I can't get over losing you...
