I've lost feeling in my hands and in my feet
All the blood is rushing to my heart and it made it skip
a beat
It's a feeling knowing you will hold me close
Through the coldest nights of winter
And i can only hope that you will
Be there with me when this old roof caves in
Sift through the debris to find me
I said i love you so many times before
But i never said i meant it anymore
And i do now

The nights get longer and it seems im sleeping less
I toss and turn without you near me
And in the morning im a mess
But im stronger with you right by my side
I've become a better person
And i can only hope that you
Will be there with me when this old roof caves in
Sift through the debris to find me

I've said i love you so many times before
But i never said i meant i meant it anymore
No i've never said i meant it anymore
And i do now

I'm not a crook but i've stolen many glances
Our hearts and eyes they meet
I looked at you, you put me in a trance ya
Nothing can compete

I've lost feeling in my hands and in my feet
All the blood is rushing to my heart and it made it skip
a beat
It's a feeling knowing you will hold me close
The nights get longer
But it seems i'm sleeping less
I toss and turn without you near me
And in the morning i'm a mess
But i'm stronger
I'm stronger
