Into a featureless face  
They carve a smile  
Time wasting style  
Of their own

Hurry up, we're losing faith  
You have to use your face  
Don't let them lose your face

She is a great believer in faith  
She gets upset when we're not  
Come on, we're losing faith  
She has to use her face  
Don't let her lose her face

Face  
Face

Into a featureless face  
They carve a smile  
Time wasting style  
Of their own

Hurry up, we're losing faith  
You have to use your face  
Don't lose your face

She is a great believer in faith  
She gets upset when we're not  
Come on, she's losing faith  
She has to use her face  
Don't let her lose her face

She's losing face  
She's losing face  
She's losing face  
She's losing face
