Another day lost in the tubes
Started confused refused of what come first
Today you minded
Numb from the---the thump behind my head
No time for what to do
You come from in my head
I'll sit and rot away
Forgot to find my empty head
I'll never know, I'll watch the lights go down
And watch me washing
Don't interrupt, ashamed with no one there
No time for what to do
You came from in my head
I'll sit and rot away
Out live the way I fell
You pull the plug again
And wave as I go home
