Wake up in the morning, feeling like a g
Got them number 42s on my feet
And the lakers just beat the heat
Clippers beat the knicks, think it's bout to be a good
week
Yeah I'm rich forever, you know I got them good seats
Now let's hit up grey stone get our fucking ace on
Know I'm in the vip, throwing back straight ' tron
Goons with me case we gotta get our fucking ape on
Niggas play superman, better have that cape on
My niggas pop up out of nowhere, stay...
But I'm cooling... play them drake songs,
And bring it back to the west side, play them a songs
Cause little mama know, we're only in here for one
night
A week though, and watch out for them wolves
Dressed in them sheep clothes
She don't really club, but I bet that ass a freak, though

We're only in here for one night, a week though,
We're only in here for one night, I said a week though,
Wish I had a... wish I had a...
Wish I had a... wish I had a...

Round of applause, baby make that ass clap
You know you... me, before I had that
She wanna body off, I'll be her new addition
She play for louis vuitons, must be her true religion
Now I'm looking for... or somebody with a body like
china
China? the one from king of diamonds who designed
them
I call her... ferrari's on her birthday
And I'ma make sure everyday is like the first day
She want another round, fuck it to another round
I don't just beat the pussy, I... to the ground
Everyday another girl in another town
I don't just beat the pussy, I... to the ground

We're only in here for one night, a week though,
We're only in here for one night, I said a week though,

Wish I had a... wish I had a...
Wish I had a... wish I had a...

Sunday night, grey stone, neck full of gray stones
Staring at the crowd, trying to see who I'ma take home
Game... I be on the champagne
Bitches all around us, trying to watch us do the damn
thang
... chicks like, oh he back, welcome to my house party
Og, roll it back,... keep a few loaded...
Bitch sneakers showing out, real niggas nodes that
California lifestyle, fucking with my nigga chuck
... young chris, nigga what, all we know is get to it
Stack high live it up, fucking with that grey stone
Everybody get them up, yeah

We're only in here for one night, a week though,
We're only in here for one night, I said a week though,
Wish I had a... wish I had a...
Wish I had a... wish I had a...
