[Intro: Rick Ross]

You know we got em  
45s, machine guns, heavy artillery  
We got those grenades on your ass, nigga  
Boss. Black Wall Street  
I'm in that bulletproof Maybach nigga (Teflon Don)

[Verse 1: Rick Ross]

Nigga talking like a G but walking like a broad  
I pull up at the light, pineapple in your car  
Nigga I shatter lives, my music camouflage  
I court killers at the center of my synagogue  
Torch in hand, extortion to the Fortune 500  
From the porches to the Porsches with the wides on it  
'Fore you snitches bitch, you better put your lives on it  
Get you twisted by the [?] with them wires on it  
I get my money smoking spliffs like it's Friday  
I'm sitting sideways like I'm in my driveway  
My champagne kicks, my shit 3 wheels  
You niggas six feet, we gettin 3 meals

[Hook:]

They got jumped  
45s, machine guns, and heavy artillery

[Verse 2: Game]

Yeah I got 2 gun charges, 2 felonies, just got off  
probation  
Today motherfucker, won't budge for no charge  
Real nigga, I hold no grudge with no thugs  
Come through spraying, bullets out the McLaaren  
They ain't meant for you, move bitch, you hard of  
hearing?  
I speed off doing 90 with Tha Carter blaring  
Bust shots in the Cavalier like I ball with Baron  
Yeah I Blake Griff niggas, make stiff niggas  
Eminem wasn't Dr. Dre's only sick nigga  
Insane in the membrane like Soul Assassins  
12 gauge stop a nigga heart like a bowl of Aspirin  
I hold automatics, let your man hold the casket  
Murder game cold as Aspen, body found in the trash

bin

First 48, they don't find me, case closed

Like a rehabilitation spot in Bobby Brown nose

Take em back to Boyz in da Hood when I pull the pump  
out

Something like C-Murder on Worldstar when I dump out

[Hook]

[Verse 3: Beanie Siegel]

Ain't nothing changed but them bullets in my clip

I still pull it, still bully niggas on the strip

Beef, I cook it fully with the fifth

And I ain't got no pets, I put a bullet in ya bitch

A nigga with a gun in his hand who won't bust it?

Like a bitch with a dick in her hand who won't suck it

This is the art of war, you niggas just drawing

Anything I target on is dearly departed, gone

Drive by or walk up on -

I just stop, breathe, aim cock squeeze

[?] on the Glock, infrared beam

Put your block up on machines while the pussies run  
and scream
