Ey yo homie, i'm number one mo'fucka  
(Fuck you) the docter's advocate nigga  
(Fuck you again), just get used to me man  
You can't get rid of me bitch

[Chorus]

You niggas had a chance now the shit is over  
It's my turn (my turn, my turn, my turn)  
Don't be mad at me cuz i kept it rollin  
It's my turn (my turn, my turn, my turn)  
24 lowenharts on that '06 rover  
It's my turn (my turn, my turn, my turn)  
Let the sun roof back and i keep on coastin  
It's my turn (my turn, my turn, my turn)

[Verse One]

I can hear niggas talkin, whisperin in the dark  
They like dogs with no bark when i pull over and park  
And them gunz start to spark and them bullets finally  
mark  
Niggas outlined in chalk and i speak from the heart  
When i say that i kill you it's simple and plain  
Don't say shit about Dre, and don't mention the game  
This industry is fake and i can't understand how a  
grown ass man  
Sent a bitch to the pen, how you snitch on the stand  
He a bitch like his man, eat a dick for a gran  
Eminem called him stan, ima say it again, if i had one  
more chance  
I would break all his ribs, with my bare fuckin hands  
I'm a gangsta on fire, you ain't you liar, you ain't got no  
pride  
There's a snitch on the wire  
Your fan base know that your gangsta is dyin  
So i won't stop till that wanksta retire (i'm gone)

[Chorus]

You niggas had a chance now the shit is over  
It's my turn (my turn, my turn, my turn)  
Don't be mad at me cuz i kept it rollin  
It's my turn (my turn, my turn, my turn)

24 lowenharts on that '06 rover  
It's my turn (my turn, my turn, my turn)  
Let the sun roof back and i keep on coastin  
It's my turn (my turn, my turn, my turn)

[Verse Two]

These rap niggas hate, and they smile in my face  
You rabbit niggaz mad cuz the turtle wanna race  
And the radio debate, what the fuck they gon play  
All that hot shit is my shit, they take what i say  
And they scrabble with my words, put it on the front  
page  
And they go find a picture of 50 and Game  
Say it's east vs west, New York and L.A.  
Since i don't button up, now i'm beefin with Jay  
And apoligize second, you niggas is wreckless  
You not gonna bait me to beef with a legend  
My pride i protect it, the streets i respect it  
I'm not tryna replace Pac so accept  
After 5 million records, the Dr.Dre lectures  
And 3 world tours, west coast resurrected  
My form of the group, to my help was rejected  
And i felt abandoned, so i threw away my necklace

[Chorus]

You niggas had a chance now the shit is over  
It's my turn (my turn, my turn, my turn)  
Don't be mad at me cuz i kept it rollin  
It's my turn (my turn, my turn, my turn)  
24 lowenharts on that '06 rover  
It's my turn (my turn, my turn, my turn)  
Let the sun roof back and i keep on coastin  
It's my turn (my turn, my turn, my turn)

[Verse Three]

After 20 magazines, and a couple awards  
I can close the first chapter, put my plaques on the wall  
To the top of the billboard, Who ever knew  
I would sell more then Destiny's Child and U2  
Or do a song with Busta, go neck and neck with Usher  
Went gold in a week, I'm a bad mothafucka  
This gangsta disciple and vice lord shit  
Brown pride, latin king, this is blood, this is crip  
Hit the impala switch, and i keep a full clip  
For any nigga sayin that i fucked his bitch  
Or changed cuz i'm rich sayin game use to strip  
Niggas wasn't sayin shit, till i came with a hit  
Now you wanna see me dead, blood stains in his whip  
Take a father from his son, put my name in cement  
And after im gone, they gon sample my songs  
You can bury my bones, but my music lives on

[Chorus]

You niggas had a chance now the shit is over  
It's my turn (my turn, my turn, my turn)  
Don't be mad at me cuz i kept it rollin  
It's my turn (my turn, my turn, my turn)  
24 lowenharts on that '06 rover  
It's my turn (my turn, my turn, my turn)  
Let the sun roof back and i keep on coastin  
It's my turn (my turn, my turn, my turn)
