Blue showers  
Stars open  
New pennies  
For heaven

And the sun wants a place in the sky  
As it spins all around  
And the rain thinks that it was only dreaming  
As it kisses the ground

No feelin'  
Poor shooting  
Find trouble  
So soothing

And the sun wants a place in the sky  
As it spins all around  
And the rain thinks that it was only dreaming  
As it kisses the ground

[Unverified]

No body  
Pure science  
No body  
Pure essence

And the sun wants a place in the sky  
As it spins all around  
And the rain thinks that it was only dreaming  
As it kisses the ground

And the sun wants a place in the sky  
As it spins all around  
And the rain thinks that it was only dreaming  
As it kisses the ground
