You said you'd make it grow  
You said you'd make it green  
But I see dusty fields  
Broken rock is all I see  
And all around me  
I see your storm clouds  
Another lies about to fall  
It seemed like it was real  
Felt like water to my skin  
But I stepped through the rainbow  
And saw the desert deep within  
And all around me  
Are roaring waters  
But I won't let me  
Be swept away  
And all around me  
I see the Pharaohs  
I see collections  
Of hats and guns
