Vultures circle the sky
Burning the ground from on high

Chorus:

Maybe I've been wasted
and maybe I'm amused
but mostly this just seems like a whole lot to lose
in such a small time
in such a small time

We killed it off before it could fly
hunted it down and then watched it die

Chorus

Vultures flying in code
burned the tongues from the road

Chorus2:

Maybe It's amazing
and maybe I'm confused
but mostly this just seems like a whole lot to lose
but mostly this just seems like a whole lot to lose
in such a small time
in such a small time
