An invitation to violence I don't need
I prey upon your fear I need to feed
Innocent girls turn me on the most
For this night of rape I will be your host
Bound and gagged for a night of lust
To get more intense I smoke angel dust
Beat you, whip you fuck you in the cunt
Urinate then defecate I must be so blunt
Sodomize your anus I will hear you scream
I keep reminding you this is not a dream
And still you continue to ask me why?
But as soon as I cum ... you will die!
