Cunt... Bitch... Whore... Slut
I hate you all eat my fuck
All I want is your smut
And to put power drills in your cunts

Your blood on my face excites me
You fucking little cunt...
Terror is my lover you will see
You are the victims I hunt

You say Satan impowers me
Well that is lie...

You fucked me over too many times
Now my power tools are waiting
To punish you for the crimes
Made me go mad with hating

You fucking cunts
I want you no more
You're the victims I hunt
Sleezy little whores

You Cunts!!!
