Get ready brothers and sisters, get ready
Get ready, we're gonna dance our troubles away - oh
yeah
Whether you are friends or foes, get ready
Get ready, we're gonna dance our sorrows away - oh
yeah
Even if you're old and grey
Come dance, those bad vibes, those bad vibes away

If you will be lighter
And Jah will give you rest of your weary head
If you're wrapped up in big sorrows
Then Jah will amend your broken heart
Forget about sadness
'Cause I know for sure there'll be gladness
Forget about your weakness
'Cause tomorrow Jah will heal your sickness
Even if you're old and grey
Come dance, those bad vibes, those bad vibes away

Each and every day I pray
For you to come home and stay

If you will be lighter
And Jah will give you rest of your weary head
If you're wrapped up in big sorrows
Then Jah will amend your broken heart
Forget about sadness
'Cause I know for sure there'll be gladness
Forget about your weakness
'Cause tomorrow Jah will heal your sickness
Even if you're old and grey
Come dance, those bad vibes, those bad vibes away

Each and every day I pray
For you to come home and stay

Even if you're old and grey
Come dance, those bad vibes, those bad vibes away
Each and every day I pray.....
