This is Marcus Garvey time, every words him said a  
come to pass  
Man woman and babes, on top of the root fighting their  
brothers  
But how long will this go on - it must got to stop -  
No bad can ever over come good

Take love and make we mash down hate  
So throw away your guns, throw away your guns  
Every man want to survive so let live in love and peace -  
let's live in love and peace  
Let Jah Jah go before us and make we mash down hate  
Jah Jah go before us

It will be signs and wonders  
Man will be running all around  
So throw away, your guns  
Throw away your guns  
Every man want to survive so let live in love and peace -  
let's live in love and peace  
Let Jah Jah go before us - and make we mash down  
hate  
Jah Jah go before us.....
