Na na na na.....

Over on the other side of the mountain  
There is that fountain, I've been searching for  
Searching for so long, so long  
That's where righteousness will always flow  
Togetherness will ever grow

So we no want no pickpocket over there  
Say you can't run no rocket over there, oh no..

An' say your hands and your heart got be clean  
To reach the other side of the mountain  
Say your hands and your heart got be clean  
To reach the other side of the mountain

I an I shall be like sounding brass and tinkling cymbals  
With gifts of mysteries to remove mountains et cetera  
et cetera  
Music, flowers and children will be there  
That's where ev'ryone will get their equal share

Say we nah want no warmongers over there  
No gossiper, no traitor will be there

Say your hands and your heart got be clean  
To reach the other side of the mountain.....

I an I shall be like sounding brass and tinkling cymbals  
With gifts of mysteries to remove mountains et cetera  
et cetera.....
