Don't blame no one, you should be glad , you're in the  
race

Moving our head away from the crowd is to be a success  
See the road is so clear, nothing to be afraid of  
Behold and move yourself, master in this race

Stay fresh, green and live forever  
Give thanks and praise to the most high  
I said stay fresh, green , God bless forever  
Give thanks and praise to the most high

Many friend don't have a man more than what he can  
dare (?)

In time of trouble, told you once before(?) He will be  
your guide

Oh, why should we cry, when Jah love us all, yeah  
Behold and move yourself, master in this race

Stay fresh, green and live forever  
Give thanks and praise to the most high  
I said stay fresh, green , you're blessed forever  
Give thanks and praise to the most high
