You told me you loved me  
You told me you cared  
Now I know it was a lie  
You told me you want me, girl  
You told me you need me  
Now I know it was a lie  
You told me you loved me  
And you'll be my one an' only  
Now you left me and gone  
Thinking I can't go on  
You were untrue - so untrue, yeah

Now you come running back  
With tears in your eyes  
When you see I've made the grade  
But I won't take you back  
No I won't take you back  
Oh, no - no, no, no  
No I won't take you back  
No more into my life  
No I won't take you back  
'Cause you just can't be my wife  
You were untrue - so untrue.....
