

The Go Set "Breakdown"

Visit "[Breakdown](#)" on MotoLyrics.com

I feel the need to get away, and find a code into the
sun
The people that were turned away, have nowhere left to
run
It's a polarised and subsidised government decision
Come and join us now boy be amongst the winners
The circle is a showdown, epicentre for the fiction
And the policies are for you, if you will be with us

They know what to say when, they know what to say
now,
They know what to say, when they're falling down
We're heading for a breakdown, we're heading for a
fall
A government shakedown, that's heading to the wall

To find today in sorrowed state, and a past that's given
way,
To a rationale economy, with a lock above the gate
It's a polarised and subsidised government decision
Come and join us now boy be amongst the winners
The circle is a showdown, epicentre for the fiction
And the policies are for you, if you will be with us

They know what to say when, they know what to say
now,
They know what to say, when they're falling down
We're heading for a breakdown, we're heading for a
fall
A government shakedown, that's heading to the wall
Breakdown, shakedown, comedown, fall down
