Once upon a time was a long time ago,  
You were in the scene that I used to know  
Remember running down to the mall,  
Feeling like we could climb the walls

We were almost having fun, enemies with the sun  
And at 6am when we're bored, we'll be coming around  
Then when I see you, I know when you're coming down

What about the show last year in LA,  
Like playing Sydney on a Tuesday  
We were driving around till the morning,  
Walking in the door and the day was dawning

Almost having fun, enemies with the sun  
6am when we're bored, we'll be coming around  
Then when I see you, I know when you're coming down
