Yeah we got a right to beat you down  
Get on the ground  
Yeah we're rising up to put you down  
Ultra gang on the street tonight  
Single out the scum amidst the urban light  
Oppression and the violence encouraged by the silence  
Get what they deserve protect, kill and serve  
Bullets and batons, bullets and batons, bullets and  
batons [x2]  
Yeah we got the right to stun grenades and barricades  
Yeah we're marching in our pig parade  
Color was the crime, doin' fuckin time  
Covert operation kid we're cleaning up the nation  
Watch your mouth and don't talk back it's all  
intimidation  
It's jsut a fuckin job, they're just a fuckin mob  
Suspending human rights and sporting bulets and  
batons  
Ultra gang on the street tonight  
Oppression and the violence encouraged by the silence  
Get what they deserve protect, kill and serve  
Bullets and batons, bullets and batons, bullets and  
batons....
