On the west most coast of Babylon is the devil's septic  
jewel  
An L.A. summer with the streets ablaze is for the starry  
eyed and fools  
There ain't nothin' here but a suicide slide for you  
No glitz, no glamour, just a bullet in a gun for you  
3,000,000 sinners all on in the same  
Bowling down for the almighty dollar bill  
Angel city thrillers and natural born killers  
Won't think twice to you cut you down to get their fill  
Hollywood dreams for the dragging queens  
All the whores on Sunset stripped  
Sold their souls to Mercedes-Benz  
Giving head just to pay the rent  
Crooked cops and ghetto blasters  
Serve themselves we serve a master  
Punchclock braindead hot and outta time  
Shooting up dope in the Hollywood hills  
I'm rollin' up coin just to pay the bills  
The streets of gold won't yield a fuckin' dime  
There ain't nothin' here but a suicide slide for you  
No glitz, no glamour, no angels in the city for you
