

The Good, The Bad And The Queen

"Heartbeats"

Visit "[Heartbeats](#)" on MotoLyrics.com

When you love me, my heart just stops
I got good at being alone
When you love me, my heart just stops
I got good at being alone
When you love me, my heart just stops
I got good at being alone
When you love me, my heart just stops

When your mama said you worried at home, well I do
That you were getting ready to tell me we're through
Yeah she told you that she loved you, you know I did too

When you love me, my heart just stops
I got good at being alone
When you love me, my heart just stops
I got good at being alone
When you love me, my heart just stops
I got good at being alone
When you love me, my heart just stops
I got good at being alone
When you love me, my heart just stops

When your mama said you worried at home, well I do
That you were getting ready to tell me we're through
Yeah she told you she loved you, you know I did too

When you love me, my heart just stops
