"Lay Down Your Arms"

Visit "[Lay Down Your Arms](#)" on MotoLyrics.com

Your words are quick, and they cut so deep
The walls go up, waiting here, wishing here, wishing
here, waiting
You forget I know your tender spots, I can hurt you too,
But I'm the one loving you, so come on and love me

Chorus:

Lay down your arms
Lay down, down, down, down
Why'd you want to go
And shoot love to the ground
Lay down your arms
Lay down, down, down, down
Lay with me

So close then the moment's shattered, like nothing
mattered
Pushing me, pulling you, pulling me, pushing
Don't want to tear our love apart, I want to give my
heart
Can't we start living here, giving

Chorus

So we are in love, so we are at war
But we can be on the same side
(Repeat chorus)
