Stay clean til seventeen
No boy makes a fool of me
I never stay in line
Ooo in time
We're wide awake til dawn
We found where we belong
My body pays the price
Try to take my life
But only get my spine
Hey you try to take my life
But only get my spine
Please, oh please believe
In anything but me
Afraid to touch the skin
Defiant to the end
Open up your mouth
Say sing to me just right
Sing to me all night
Say sing to me just right
Sing to me all night
Please, oh please believe
In anything but me
So get lost or make your move
Yeah everyone's got better things to do
And they won't wait on you
Stay clean til seventeen
No one makes a fool of me
My body pays the price
Try to take my life
But only get my spine
Please, oh please believe in anything but me
So get lost, or make your move
Yeah everyone's got better things to do
And they won't wait on you
Ooo get lost, or get sold
Yeah everyone's got somewhere else to go
And they won't wait on you
