"After Us The Flood"

Trough the ruins the currents tear
In a final tidal surge
Redemption - for the deviant ones
In a violent storm submerged

Regeneration of makind
All our nightmares come alive

Death or desperation
We stare blind inot the void
Mankind in submission
Trough cleansing storms reborn

Regeneration of mankind
Akk our nightmares come alive

Grinding wheels of terror
Your death it will be slow
Unleash the demons blind
After us the flood

Ritual of submission
A life not longer yours
Unholy furnace scorching the earth
In a cleansing storm reborn

Regeneration of mankind
All our nightmares come alive

Dead-end nation, ravaged and torn
All our morals lie rotten
To the lake of Sulphur
-Cold hearts they are sworn
Dead - buried - forgotten

Regeneration of mankind
All our nighmares come alive
