The cult of apathy  
The misanthropic seed  
A ritual of deceit  
Sleeping with the enemy

Worship discharge - blind  
In denial reconciled  
A venom well - designed  
Martyrs For us to idolize

The slaughter of innocence  
In silence stripped of hope  
We bear witness to the massacre  
The missantropic seed of neglect  
Ritual of deceit  
Sleepng with the enemy

The grandeur, the passion  
In submission, stripped of all our hope  
The slaughter of innocence  
We destroy what we adore

The void of vanity  
The nihilistic breed  
Virus of jealousy  
Suicidal fasihon freaks

Seductive Media - play  
Introducing death as the greatest star  
A cynical grin  
In alienation sheltered hearts

The slaughter of innocence  
In silence stripped of hope  
We bear witness to the end of man  
A nihilistic seed of contempt  
Void of vanity  
Sucidal fasion freaks
