Infestation

- Apathy spreads like the plague

Worldwide regression

- As our lives are spent wasting away

Degenreation

- All righteous pigs will pay

Intellectual shutdown

- Monotony breeds dinosaur ways

Consuming the earth like a war

Festering demons breed in open sores

Soaring the skies like a plague

Mankind runs amok in catatonic rage

Poisoned Chalice

Parasites drink from our soul

Heritage of a generation cold

Poisoned chalice

Sheep in a flock yet alone

Heritage of a generation cold

Indoctrination

- Paving the golden way

The world keeps turning

- Turning faster day by day

Consuming the earth like a war

Festering demons breed in open sores

Soaring the skies like a plague

Mankind runs amok in catatonic rage
