Please...I need you more than ever before...Come to me

Because you are the one

You make it right when shit's all messed up

You are the one

Please...Don't ever let me fall that far...No not again

Because you were the one who made so long, so long  
Give me up and expect more of the same

Give me up but don't be ashamed

Living is the only way to prove why you bleed

So ashamed

Integrity is not the only virtue I need

So help me...Please

No...This is not the way I wanted things to end

Because you are the one

You make it right when shit's all messed up

You are the one

Please...Just understand that none of this was done in vain

I can't explain

It seems lately I don't have the will to fight no more

Waiting, contemplating about being alone

Individuality is all that matters to me

I've gone insane

It seems lately I don't have the will to fight no more

Hating, always grating me right down to the bone

Individuality is all that matters to me

Hating, contemplating about being alone in this world

All I need is to believe the answers will come

Because I am the one

I am the only one I know of

I am the one

Please...I need a little more...I just need to taste it

Because it feels so wrong it's been so long, so long

Give me up and expect more of the same
