

## **The Great Deceiver "Arsenic Dreams"**

Visit "[Arsenic Dreams](#)" on MotoLyrics.com

Arsenic dreams and shattered hopes  
In darkness steeped  
Venomous souls  
Sedated lives at reptile speed  
Stripped of hope and left to bleed

I find myself smaller and smaller  
Each and every day  
Rejections, expectations  
Crush me with their weight

Arsenic dreams and shattered hopes  
In darkness steeped  
Venomous souls

Arsenic dreams rush burning cold  
In darkness steeped  
Anguish unfolds  
Within man beats the heart of disease  
As the earth drinks the blood of the meek

Arsenic dreams burning cold  
In darkness steeped  
Anguish unfolds

No gods, no masters, no pre-destined fate  
Armageddon lies dormant inside us  
I see your creation foaming with rage  
Misanthropic and righteous

Arsenic dreams and shattered hopes  
In darkness steeped  
Venomous souls  
Arsenic dreams  
No gods, no masters, no pre-destined fate  
Armageddon lies dormant inside us  
I see your creation foaming with rage  
Misanthropic and righteous

The world turns under the burning sky
