[Intro:]

This well hidden secret  
Is mine to tell  
And yours to keep...

[Strophe #1:]

I wrote a thousand pages  
They're torn and on the floor  
I'm waiting here for ages  
Still locked behind this door  
I stuck in fledging stages  
Something itches me so sore  
I'm chained to imitated places  
Without a horizon to adore...

[Chorus:]

Someone gave me a feeling that everything's going as  
planned  
Then everything fell apart back to the beginning, where  
it will end  
I made a compromise with an illusion, eating out of  
your hand  
Scared of directions left to go, by the hope that you  
may grant

[Past Chorus:]

So where did I go wrong?  
And where did I come from?  
So what should I do from now?  
And what will I reach somehow?

[Strophe #2:]

I felt a thousand feelings  
And all what's left is hate  
I ached for lifetime healings  
What is the key to my escape?  
I'm traffic in human beings  
There is a price for you, I made

[Breakedown:]

It's all a matter of right dealings  
So what's the price to get you laid?

[Chorus:]

Someone gave me a feeling that everything's going as  
planned  
Then everything fell apart back to the beginning, where  
it will end  
I made a compromise with an illusion, eating out of  
your hand  
Scared of directions left to go, by the hope that you  
may grant

[Past Chorus:]

So where did I go wrong?  
And where did I come from?  
So what should I do from now?  
And what will I reach somehow?

[Outro:]

A clock shows fading hope  
So if you would turn back time  
You'll have to watch it passing by  
Until forever ends
