Six days before  
The foreboded doomsday  
Appeared four  
Mounted spectre  
Apocalypse...  
The four horsemen personate  
Pestilence and eath  
Starvation and war  
The four servant of evil  
Apocalypse...  
Oceans have  
Overflowed everything  
Clouds burst to the earth  
Earthquake begun  
Everywhere  
Broke up the lava  
Towns were destroyed  
By the seas and lava  
Four of them  
Were standing quietly  
Watching from the sky  
What was happening down there  
When the last human was killed  
They have announced with  
Their bloody swords  
The deadly storm ended  
Apocalypse...  
The world looked like before  
It was the day of the doom  
They have started their way  
Up to heaven and down to hell  
Apocalypse...
