My heart keeps beating like a juke box stuck on the who
My heart keeps beating but there's not much more I can
use

Just so so you know there's a new car I stole
I drove into a tree hoping that you would see
Just so so you know just so so you know
And maybe I'm all wrong but there's an blot I saw
It looked like you and me or maybe something like a
good dream

My heart keeps beating like a juke box stuck on the who
My heart keeps beating but there's not much more I can
use
And I'm so tired afraid of what I'm gonna do

And I've seen the films but they don't show what I feel
Instead I found a book which you never even took
For 3 nights in a row there's pills that I stole
And maybe I'm all wrong but there's an ink blot I saw
It looked like you and me or maybe something
Like a mood swing

My heart keeps beating like a juke box stuck on the who
My heart keeps beating but there's not much more I can
use
My heart keeps beating like a juke box stuck on the who
My heart keeps beating but there's not much more I can
use
And I'm so tired it's been a while afraid of what I'm
gonna do

Just so so you know
