Death is not survival  
Your life was frail  
You always broke the laws of god  
I've got your brain 'cause  
You don't need it anymore  
Here is no what you have to think about  
Something has changed around you  
It's not that world yet  
Soon I will meet with you  
It's too late to cry  
I'm waiting for you here  
This is the world of fallen angels  
I always hated you  
And I always helped you  
But we always were enemies  
When I was with you  
I was always against you  
And from now the inside pain will burn you  
TORMENTOR - black fire  
TORMENTOR - frosty winds  
TORMENTOR - this time  
TORMENTOR - this space  
TORMENTOR - to hear that laughing voice:  
"It's a long time you'll get out from here"  
You murdered 'cause you were coward  
You were raging by me  
Why were you in league with me  
I made you possessed!  
You were good looking  
And you had all you wanted  
But those times are over  
I made you obsessed
