Well, if you ever been to Paris and you ever missed a
plane
Nothin' much to do but sit around
Think a little ???? will laugh at where you come from
Have another glass of Paris Brown

I'm alone and they're still jivin'
He plugged himself in and left her screamin'

Planes are goin' up
Planes are comin' down
Bells around here about enough to drive a poor boy
mad
Planes are goin' up
Planes are comin' down
Better get to Rome and have a look at younger sister of
my Dad

----- short instrumental break -----

Well, the mission was accomplished on the day that
you arrived
Maria hung you out and let you dry
You never understood the language lesson that she
gave you
Caught it in reflection of her eye

I'm alone and they're still jivin'
He plugged himself in and left her droolin'

Planes are goin' up
Planes are comin' down
Bells around here about enough to drive a poor boy
mad
Planes are goin' up
Planes are comin' down
Better get to Rome and have a look at younger sister of
my Dad
