

## The Gumo "Better Day"

Visit "[Better Day](#)" on MotoLyrics.com

I saw you dj-ing in a bar  
Looking at you I had fun  
And you left in the morning

Summer's days don't want to wait  
It seems to me that we are late  
I will leave in the morning

### CHORUS

You were right when you said:  
"It's only another day  
We have to run..."  
You were right when you said:  
"It's only another day  
We have to run...  
Until it's done"

There's a way back home I see  
And a place where I can sleep  
I'm going to leave in the morning  
I'll fix my past day by day  
It's not time for me to stay  
I'm going to leave in the morning

### CHORUS x2

You were right when you said:  
"It's only another day  
We have to run..."  
You were right when you said:  
"It's only another day  
We have to run...  
Until it's done"

I saw you dj-ing in a bar  
Looking at you I had fun  
And you left in the morning
