As soon as you left your fear
All disappeared
There's a world
Outside your door
That you want to know
And we should go

Chorus

This beautiful time
It's never been mine
That is the life I need to find

It's up to you
Something has changed
You turned the page
At the end
Choices are in your hands
We can never know
But we have to go

Bridge
Climbing a mountain
It has always been so hard
But you found the way now
And this time
Will be a success for us
