Walking the streets slow tonight  
I can not even say hi  
Occasional friends make me tired  
it is only a way to survive

Already been in all the bars  
I would like to shine like the stars  
Sadness is my new lifestyle  
Find me a way to survive

### CHORUS

Can you give me advice  
I need a new sunrise  
And even if there's no time  
Tell me you're fine tonight

Where do I belong, I don't know  
Frustrated and obsessed I move slow  
I'm down on my knees baby please  
You can be the cure of my disease

### CHORUS

Can you give me advice  
I need a new sunrise  
And even if there's no time  
Tell me you're fine tonight
