I saw you  
Talking 'bout plagues and peoples  
You're on override  
You are lost on the Great Divide

You see  
That you're preaching old ideas  
That when worlds collide  
You are lost in the Great Divide now

And homeless in the street  
Make you feel the freak  
And your future looks so bleak  
Your ideal world  
Becomes antique

Now, you're lost and you say  
Standing, say we're equal  
But, the valley's wide  
And you are lost on the Great Divide

On the Great Divide  
On the Great Divide  
On the Great Divide  
On the Great Divide now
