Many lost days
While you're waiting
And nobody came
You were searching
For someone who
Could tell you how you can live
Beneath the truth

CHORUS

And we all feel
We can turn it around
But then we don't
And we all feel
We can turn it around
But then we don't ever know do

That's the story
Of one of us
And it could happen to everyone
You hope to find ways
To improve your days
And nobody came to show you how

CHORUS x2

And we all feel
We can turn it around
But then we don't
And we all feel
We can turn it around
But then we don't ever know do
