Movement; every road stretches for a million miles
Come on; circular motion takes it straight to the point
I wanna know; if the tensions drops would I love you
still the same?
Tell me; got your heart on your sleeve and the world at
your feet

Freedom is the way I live
Freedom is the way I move
Movement is the breath I breathe
Movement is the blood I bleed

Movement; until the sun comes up feeling tired and
free
Come on; my mind's been on this for a thousand years
I wanna know; when we get to the end can we do it all
again?
Keep on; as far as the road goes I'll go the road

Freedom is the way I live
Freedom is the way I move
Movement is the breath I breathe
Movement is the blood I bleed

Your heart was crying on your sleeve
The world was standing on your feet
And freedom left, it wouldn't stay
But now we move a different way
Now we move a different way
