Air - Call Me

=====

If I were you I'd let the whole thing drop,
If you don't you know that it will never stop.
Should have got wise when the shit hit the fan,
Should have got wise when you abandoned the frying
pan.

Chorus:

Well you should have called me,
Call me, call me.
Why don't you call me?
Call me, call me.
Why don't you call me?
Call me, call me.
You could have called me,
Call me, call me.

If I were you I'd let the whole thing blow away,
You can always make it up, some other day.
And I don't understand why your friends are all so out
of sight,
Guess they were hoping that you and I would pick a
fight.

Repeat chorus.

I don't understand how you got into this mess,
Started out with nothing, ended up with less.
And I'll never know why you didn't do the right thing,
Just pick up the phone and give someone a ring,
Well you could have called me... Repeat chorus.
