I am feeling very warm right now, please don't
disappear

I am spacing out with you

You are the most beautiful entity that I've ever
dreamed of

At night I will protect you in your dreams

I will be your angel

You worry so much about not having enough time
together

It makes no difference to me, I would be happy with
just

One minute in your arms

Let's have an extended play together

You're telling me that we live too far to love each other
But our love can stretch further than you and I can see
So how does this make you feel?

How does it make you feel?

How does it make you feel?

How does it make you feel?

How does it make you feel?

Do you know that when you look at me

It is a salvation

I've been waiting for you for so long

I can drive on that road forever

I wish you could exist to live on my planet

Well it's very hard for me

To say these things in your presence

So how does this make you feel?

How does it make you feel?

How does it make you feel?

How does it make you feel?

How does it make you feel?

How does it make you feel?

How does it make you feel?

How does it make you feel?

How does it make you feel?

So how does this make you feel?

Well, I really think you should quit smoking
