"Missing The Light Of The Day"

Partying all night long
Sleeping around
Waking up so late
Missing the light of the day
The light of the day
Mixing bad people
Arguing with friends
Getting so much stress, getting so much stress,
Getting so much stress, getting so much stress
Missing the light of the day
The light of the day
Missing the light of the day
The light of the day
Partying all night long, partying all night long,
Partying all night long,
Sleeping around, sleeping around, sleeping around
Waking up so late, waking up so late, waking up so late
