Air - Prejudice

=====

Why do you set the test, when you already know the result?

Why do you place the blame, when you're the one at fault?

Why do you tell the joke, we all know that it ain't funny?

Why do you look for rain? When here it's only sunny.

Chorus:

Prejudice.

In the name of Prejudice,

In the face of Prejudice,

In the heart of Prejudice.

Why do you knock him down? Just because of what he is.

Why do you knock her down? Just because of who she is.

Why not try and pick them up? Let them know where they fit in.

You can always try and pick them up,

Always try and pick them up. Repeat chorus.
