Air - Snatch

=====

I'm gonna live to make you eat your words,  
I'm gonna live to make them sound so absurd.  
I know you want it, I know that you do.  
I know you want it, you want it don't you.

Chorus:

You'd better take it while you can.  
Nothing lasts forever.

I am your nightmare, I am your fate.  
You'd better take it before it's too late.  
I know you want it, I know that you do,  
I know you want it, you want it don't you. Repeat chorus.
