"Embers"

Break me, release me, take my soul away, your
blinding everything
Smiling, I'm crying, running through my veins, erasing
everything
Now everything is grey, ashes blown away
I'm drifting further everyday
Reliving hell everyday, everyday, come on and make
me fall, fall, fall
Embers burning away
Use me, abuse me, controlling night and day,
releasing all my pain
Dying, I'm falling into this hell again, take over me my
friend
I can feel you pulling - I cant feel my soul
